Dear Mr. Rowley:

Enclosed herewith is our "Notice" for some minor access road maintenance work on our mining claims. We plan to accomplish that task with a rubber tire loader.

In your letter to me dated August 1, 1991, you said, "In the future, if you plan on upgrading the roads, we would ask that you crown the roads and make small drainage ditches. This will help in preventing erosion of the roads."

We would like to accommodate your request; however, we believe grader work would be required, and the grader blade is 16' wide. Working with a grader would require widening the roads. Currently, we do not need wider roads. If you would like for us to put in a few water bars to assist in erosion control, please call and we will be happy to accommodate you.

Yours truly,

W. Wesley Emerson
Vice President of Finance

PLAN OF OPERATIONS

(For Operations Proposed Under the 43 CFR 3809 Regulations)

Instructions to Claimant/Operator: Circle "Notice" above if operations within the project area propose to disturb a total of five (5) acres or less during the calendar year. Circle "Plan of Operations" if the proposed disturbance will exceed five (5) acres during the calendar year or if your operations are proposed in an area listed in 3809.1-4(b). Complete the form in as much detail as possible. Use maps or sketches where appropriate (maps or sketches are required for submitted plans of operations and are recommended, but not required, for submitted notices). A review of 43 CFR 3809 Regulations should be conducted prior to completion of this form and submission to the appropriate BLM office.

Proposed Operations: Describe the entire proposed operation, including all surface disturbing activities (road construction, drilling, trenching, backhoe and bulldozer exploration, mining, waste disposal, etc.). List all mechanized earth moving equipment to be used during the operation and state if any explosives are to be utilized. Describe and furnish a map or sketch, when applicable, showing existing surface disturbances, structures, facilities, etc., and the location and size of areas where surface disturbances are proposed, including existing and/or proposed routes of access. Calculate the total acreage proposed for disturbance (1 AC. = 43,560 sq. ft.). *PROVIDED ELSEWHERE*

Date Operations are Proposed to Commence as Outlined in this Submittal - (Month, Day, Year):

March 7, 1992, or some later weekend

Proposed Operations

Rubber tire loader with 8' blade will be used for approximately 8 hours to maintain and upgrade existing roads. Roads will not be widened, no new roads will be created, and natural drainage patterns through draws will not be disturbed. It is anticipated that less than 20% of the surface area of the approximate 13,600 lineal feet of existing 10' wide roadbeds will be disturbed.

Proposed Completion Date
August 31, 1992,

Proposed Reclamation: Describe the proposed reclamation procedures and other measures to be taken to prevent unnecessary or undue degradation of the lands, including measures to be taken if a period of non-operation is anticipated.

Existing roads utilize by surface owners or grazers using public lands.
No reclamation appears necessary.

I hereby declare that I, or persons I have authorized to do so, will complete all necessary reclamation of areas disturbed during the course of my operations to the standards described in 43 CFR 3809.1-3(d) and that reasonable measures will be taken to prevent unnecessary or undue degradation of the federal lands during operations.

Notice to Claimants/Operators:

1. A notice submitted in relation to the 43 CFR 3809 regulations does not require approval from the BLM. However, notification of such activities shall be made at least 15 days before commencing operations. Approval of a submitted plan of operations is required from the BLM prior to commencing operations. The BLM will promptly acknowledge receipt of a plan and will notify the claimant/operator of the status of the plan within 30 days of receipt.
2. Approval of a plan of operations does not constitute certification of ownership to any person named as claimant/operator herein, nor does approval constitute recognition of the validity of any mining claims named herein.
3. Information and data submitted and specifically identified by the operator as containing trade secrets or confidential or privileged commercial or financial information should be attached to a separate page and cited in the text of the notice or plan of operations. This information will be filed separately by the BLM and will not be available for public inspection.
4. Failure of an operator to file a notice under 3809.1-3 or a plan of operations under 3809.1-4 will subject the operator, at the discretion of the authorized officer, to being served a notice of non-compliance or enjoined from the continuation of such operations by a court order until such time as a plan or notice is filed with the authorized officer.
